Departments & Services

“Chermetcom” trading company consists of a few divisions engaged in purchasing and marketing of metal products, delivery of finished goods, metalwork and mounting. Our company has a logistics and transport department, which is specialized on a product delivery to clients. Also Chermetcom owns several storehouses (one of which is a covered storehouse). They are situated conveniently in different Moscow districts and near suburbs. The company has its own production and mounting unit as well.

All of these ensures that an integrated approach is utilized with each of our client’s and partner’s projects and guarantees the high quality of services and products.

Chermetcom company has earned a reputation of a multipurpose and accurate supplier in its years of service. It established strong partnerships with the biggest metal manufacturers, built its own metal production unit and opened a large transport department.

Our transport department was founded in 2007. Now this department has 12 vehicles of different sizes and load-carrying capacities at the present day. It's renewing and evolving all the time. Delivery services are available not only in Moscow but throughout the whole Russian territory.

The Metalwork department offers various services to its clients: quality metal cutting, rapid professional production and mounting of metal structures for very low prices. Moreover, Chermetcom renders services on production of metal components and items based on client's design. Our specialists also do calculations on materials for construction work (on customers demand), mount metal tiles and sandwich panels with professional equipment and quality finishing accessories, so our clients not only can save their time and money but they are also getting a guarantee of the high quality of the construction works.
